General Organisation of Programme activities

C1. General Organisation

Please describe the structure at your institution for the implementation and organisation of European and international mobility (division of tasks, operational and communication methods). (max. 1000 characters)

Please provide the direct web link with the contact details of the international office (or equivalent) in your institution dealing with the implementation and organisation of European and international mobility:

Transilvania University of Brasov (UTBv) is an accredited highereducation institution. It has 18 faculties, over 20.000 students and 788 academic staff members. It delivers study programmes in the fields of fundamental sciences, engineering, economics, law, sociology, arts and medicine, at all levels: BA, MA, PhD. The International Relations Office is responsible for the implementation of the UTBv internationalization strategy, including European and international mobility. It consists of: 1-Office for Community Programmes for Education and Professional Development (BPCDEFP-UTBv), the structure supporting the implementation of LLP, and 2-Office for International Partnerships and Foreign Students. BPCDEFP-UTBv is coordinated by the Management Committee, consisting of institutional coord. (1-LLP, 2-Erasmus) and 18 faculty coord. The operational and communication methods are based on periodic meetings, direct contacts, websites: www.unitbv.ro/ori; www.unitbv.ro/orien, erasmus.unitbv.ro

C2. Fundamental Principles

By applying for the Erasmus Charter for Higher Education my institution will:

Respect in full the principles of non-discrimination set out in the Programme and ensure equal access and opportunities to mobile participants from all backgrounds.

Ensure full recognition for satisfactorily completed activities of study mobility and, where possible, traineeships in terms of credits awarded (ECTS or compatible system.). Ensure the inclusion of satisfactorily completed study and/or traineeship mobility activities in the final record of student achievements (Diploma Supplement or equivalent).

Please explain the academic credit system and the methodology used to allocate credits to the different course units followed by your students abroad. (max. 1000 characters)

In addition, please provide the direct web link where the methodology is explained:

All the study programmes curricula from UTBv at all levels (BA/ MA/ PhD) include credit allocation for disciplines: 60 credits/year, 30 credits/semester. One credit equals to 25-30 hours of study (didactic activities and individual study). The following general ECTS principles are adopted at institutional level: a) credits allocated in the curriculum are obtained by the student through his/ her participation to the compulsory activities and individual study and by obtaining the minimum grade 5 (five) as a result of the evaluation process; b) credits obtained for a discipline are valid for the entire scholar life; their recognition does not make a difference if the curriculum is changed; c) credits may be obtained in advance and they may be reported to further semesters; d) credits obtained by students based on contracts with UTBv or other universities may be recognized through bilateral agreements.

http://www.unitbv.ro/Portals/4/08a_Regulament%20act%20profesionala%20stud.pdf art. 15.

Charge no fees, in the case of credit mobility, to incoming mobile students for tuition, registration, examinations or access to laboratory and library facilities.

C3. When Participating in Mobility Activities - Before mobility

Publish and regularly update the course catalogue on the website of the Institution well in advance of the mobility periods, so as to be transparent to all parties and allow mobile students to make well-informed choices about the courses they will follow.

Provide guidance to incoming mobile participants in finding accommodation.

Please explain if all courses taught at your institution are described in the Course Catalogue and in which languages. (max. 500 characters)

In addition, please provide the direct web link to your Course Catalogue:

All the study programmes taught at UTBv are presented on the university website, both in Romanian (www.unitbv.ro/Programedestudii.aspx) and English (www.unitbv.ro/en/AcademicProgrammes.aspx). Currently, the process of updating course information is on-going; their description is on-line, at [http://www.unitbv.ro/en/AcademicProgrammes/Bachelor%E2%80%99sDegreeProgrammes/Full-time Education.aspx](http://www.unitbv.ro/en/AcademicProgrammes/Bachelor%E2%80%99sDegreeProgrammes/Full-time%20Education.aspx). In addition, information is always provided, on request, by BPCDEFP-UTBv (also called Erasmus Office).

Carry out mobility only within the framework of prior agreements between institutions. These agreements establish the respective roles and responsibilities of the different parties, as well as their commitment to shared quality criteria in the selection, preparation, reception and integration of mobile participants.

Please describe the institutional procedure for the approval and monitoring of inter-institutional agreements for study and teaching mobility and/or learning agreements in case of traineeships (work placements). (max. 1000 characters)

The institutional procedure is elaborated by the Management Committee of the Erasmus Office (BPCDEFP-UTBv) and approved by the University Administration Council. It is based on methodologies regulating: 1) student mobility for study and practical placement, 2) teaching staff mobility for assignment, 3) academic and/or non-academic staff mobility for training; it is available on the website, at <http://www.unitbv.ro/ori> (sections: 'Mobilitati studenti' and 'Mobilitati personal universitar'). After the selection process is achieved, the students are guided to complete the learning/ training agreements by the Erasmus faculty coordinator, who is also responsible for the approval and monitoring of the agreements. The final approval, at institutional level, is given by the Management Committee of the Erasmus Office. The teaching mobility is based on an activity plan approved by the same Management Committee. The staff mobility applications are assessed at departmental and institutional level

Ensure that outgoing mobile participants are well prepared for the mobility, including having attained the necessary level of linguistic proficiency.

Please describe your institution's language policy for preparing participants for mobility, e.g.: course providers within or outside the HEI. (max. 750 characters)

If possible, please provide the direct web link for your language policy:

All the UTBv students attend foreign language courses (English, French, German or Spanish), as part of the regular curriculum, during four semesters (1st and 2nd year of study). In addition, they may choose optional courses of other foreign languages, provided by the Faculty of Letters, through the Centre for Modern Languages, <http://www.cilm.ro>. The selection process for Erasmus student mobility includes testing the ability to communicate in a foreign language (the one needed for the specific mobility). The students with insufficient knowledge are guided to attend additional courses before being unconditionally admitted into the programme.

Ensure that student and staff mobility for education or training purposes is based on a learning agreement for students and a mobility agreement for staff validated in advance between the home and host institutions or enterprises and the mobile participants.

Provide assistance related to obtaining visas, when required, for incoming and outgoing mobile participants.

Provide assistance related to obtaining insurance, when required, for incoming and outgoing mobile participants.

C4. When Participating in Mobility Activities - During Mobility

Ensure equal academic treatment and services for home students and staff and incoming mobile participants.

Integrate incoming mobile participants into the Institution's everyday life.

Have in place appropriate mentoring and support arrangements for mobile participants.

Please describe mentoring and support arrangements for incoming mobile participants and outgoing students for study and traineeships. (max. 750 characters)

The Erasmus Office ensures the permanent communication with the partner institutions; it is the first receiving the applications from students and staff interested for mobility at UTBv and passes it to the specific faculty coordinator. The mentoring for incoming students is ensured at faculty level, by the faculty Erasmus coordinator. The staff training mobility may be organized either centralized, by the Erasmus Office, or by the faculty coordinator, depending on the training objectives. The arrangements related to accommodation and language course are performed by the Erasmus Office. Each outgoing student has an assigned tutor and mentor, providing monitoring in the host/ home institutions and assuring the mobility full valorisation.

Provide appropriate linguistic support to incoming mobile participants.

Please describe your institution's language support for incoming students and staff with a minimum of 2-month mobility period. (max. 500 characters)

If possible, please provide the direct web link for your language policy:

A Romanian language course is provided for the incoming students and staff, on request, by the Faculty of Letters, through the Center for Modern Languages, <http://www.cilm.ro>; the course is awarded with 2 credit points. The students interested to enroll for a course to learn Romanian language are requested to fill in a form which is available on the website, at <http://www.unitbv.ro/ori/Mobilitatistudenti/ERASMUS/Incoming.aspx>, prior to their arrival in Brasov.

C5. When Participating in Mobility Activities - After Mobility

Accept all activities indicated in the learning agreement as counting towards the degree, provided these have been satisfactorily completed by the mobile students.

Provide incoming mobile participants and their home institutions with transcripts containing a full, accurate and timely record of their achievements at the end of their mobility period.

Regarding the above two Charter principles, please describe the mechanisms your institution has in place to recognise mobility achievements for study and traineeships in enterprises. (max. 750 characters)

In addition, please provide the direct web link for this recognition procedure:

UTBv recognizes 'in integrum' and automatically the mobility achievements, by awarding the student the total number of credits achieved in the host institution. The mechanisms are based on an official document issued by the UTBv Senate (<http://www.unitbv.ro/Portals/0/Documente%20UTBv/metodologia%20LLP.pdf>). The information regarding the recognition procedure is available for students on the webpage dedicated to outgoing mobility, <http://www.unitbv.ro/ori/Mobilitatistudenti/ERASMUS/Outgoing.aspx> - section VII. The recognition is performed at faculty level, by the Recognition Board (dean, study programme coordinator and Erasmus faculty coordinator), and validated at institutional level. Additional credits are put in the Diploma Supplement.

Support the reintegration of mobile participants and give them the opportunity, upon return, to build on their experiences for the benefit of the Institution and their peers.

Ensure that staff are given recognition for their teaching and training activities undertaken during the mobility period, based on a mobility agreement.

Please describe your institution's measures to support, to promote and to recognise staff mobility. (max. 750 characters)

The Erasmus staff mobility is permanently promoted within the academic community, via intranet and through the Erasmus faculty coordinators. Complete information is available on the webpage dedicated to staff mobility, <http://www.unitbv.ro/ori/Mobilitatipersonaluniversitar.aspx>, both for assignment and training activities. Erasmus Office assists the staff to identify the most suitable mobility and to complete the administrative procedure. In addition, all the training offers received from the partner universities are published on the website, <http://www.unitbv.ro/ori/Oportunitati/Personaluniversitar.aspx>. The mobility recognition is based on the Certificate of attendance issued by the host institution and on the individual activity report.

C6. When Participating in European and International Cooperation Projects

Ensure that cooperation leads to sustainable and balanced outcomes for all partners.

Provide relevant support to staff and students participating in these activities.

Please describe your institutional measures to support, promote and recognise the participation of your own institution's staff and students in European and international cooperation projects under the Programme. (max. 750 characters)

UTBv has a remarkable activity related to projects under the LLP Programme, <http://www.unitbv.ro/orien/EducationalProjects.aspx>: 135 projects implemented during 1999-2012 and 20 in progress, in 2013. This has been possible due to the continuous support and promotion at the institutional level. It may be stated that the University has already a culture in participating to LLP projects, both as coordinator or partners. The Erasmus Office provides support to the interested staff in finding reliable project partners. The Project Management Office is the support structure for projects implementation and monitoring. Some of the projects involve student associations, others involve students as beneficiary, and they are encouraged to participate.

Exploit the results of the projects in a way that will maximise their impact on individuals and participating institutions and encourage peer learning with the wider academic community.

C7. For the Purposes of Visibility

Display the Charter and the related Erasmus Policy Statement prominently on the Institution's website.

Promote consistently activities supported by the Programme, along with their results.

Erasmus Policy Statement (Overall Strategy)

D. Erasmus Policy Statement (Overall Strategy)

The Institution agrees to publish this overall strategy (all three parts) on its website within one month after the signature of the Erasmus Charter for Higher Education by the European Commission.

Please describe your institution's international (EU and non-EU) strategy. In your description please explain a) how you choose your partners, b) in which geographical area(s) and c) the most important objectives and target groups of your mobility activities (with regard to staff and students in first, second and third cycles, including study and training, and short cycles). If applicable, also explain how your institution participates in the development of double/multiple/joint degrees. (max. 5000 characters)

Original language [EN]

International strategy in the educational field:

- Enhancing the teaching experience by promoting Teaching Staff exchanges at international level; financial support is given by UTBv for academic staff participation in international assignments.
- Improvement of the teaching-learning process by common development, together with international partners, of study programmes curricula, course modules, and didactic materials.
- Stimulating interactive teaching activities and logistically and financially supporting students' international practical training, by international programmes. Promoting the development of graduation/ dissertation theses for students within an international framework (university or company).
- Stimulating the students exchanges, both outgoing and incoming, for study and practical placement abroad, in order to develop transversal skills and enhance employability.
- Increasing the number of study programmes taught in foreign languages and promoting the joint degree/double degree programmes especially for the second cycle – master's programmes.
- Consolidating the centre for teaching Romanian as a foreign language.
- Continuing the promotion of lifelong learning activities through international projects.
- Promoting the image of the University at international level; this should bring to the fore both the traditional domains and the more recently developed ones, as well as their outstanding results and achievements.
- Development of flexible tools for promoting the educational offer at international level (university website, information guide for international students, study programmes catalog, etc.)
- Establishing a welcome office for international students.

With regard to human resources, UTBv stimulates the participation of academic and non-academic staff in international training programmes and supports exchange of experience by organizing international training programmes in UTBv.

International strategy in the field of scientific research:

- Promoting the institutional, logistic and resource allocation framework which should enable the University to become one of the most successful universities in Romania in the field of research and to be acknowledged internationally in the field of Sustainable Development.
- Promoting the Institute of Research and Development of the University at international level with a view to exploiting the competitive advantage and the image it confers to UTBv.
- Suggesting measures to strengthen the Interdisciplinary Doctoral School and to stimulate the international collaborations, the co-tutorship doctoral programmes and the enrolment of foreign doctoral and post-doctoral students.
- Supporting the international mobility of researchers within UTBv.
- Supporting the students' scientific research activity by organizing students' scientific conferences and by rewarding the best students; supporting the students in participating in international scientific events.
- Supporting logistically and financially the organization of scientific events and the scientific publications of the university or under the aegis of the university with a view to increasing the impact as well as the international visibility.
- Promoting the participation of university staff and students in international projects, both on research and education.

UTBv will continue to participate as active member in international associations and networks that would contribute to enhancing the international cooperation and increasing the visibility of the institution (<http://www.unitbv.ro/ori/Colaborari/Afilieri.aspx>).

- UTBv chooses the international partners mainly based on previous individual experiences of its staff: fruitful cooperation at small scale may evolve in framework agreements at institutional level. On the other hand, there are the UTBv international vectors (alumni, former professors, etc. currently teaching in foreign universities) that identify and propose partnerships for UTBv.
- UTBv is expanding the international relations in Europe, Middle Asia and Africa, China, USA, Canada, Mexico. During the last period there have been developed international agreements with universities in Russia and countries from the former Soviet Union.
- UTBv has a double degree master programme in Computer Science, in cooperation with Technical University of Ilmenau, Germany, financed by the German Agency DAAD. It will start in October 2013.

If applicable, please describe your institution's strategy for the organisation and implementation of international (EU and non-EU) cooperation projects in teaching and training in relation to projects implemented under the Programme. (max. 2000 characters)

Original language [EN]

The LLP-Erasmus action, is organized and implemented at institutional level, according to the Annual Institutional Contract signed with the National Agency. The support structure is the BPCDEFP-UTBv (Erasmus Office), part of the International Relations Office.

The goal of the transnational collaboration is to register high quality results for each particular item that is subject of the projects. For attending this goal, Management Committee of the Erasmus Office manages the STS, STP, STA and STT mobility, in addition, being responsible for promoting the other LLP actions within the university. The UTBv leadership (the Administrative Council and the Senate) is periodically informed about the progress and the activities developed within the framework of the LLP.

Although the responsibility for correct implementation of the projects is directed to the project coordinators, the Management Committee of the Erasmus Office and the Project Management Office (BMP - <http://www.unitbv.ro/bmp/>) offers support and monitor the projects implementation (there is one full-time person dedicated to managing international projects at BMP).

All the international educational projects are visible on the website (<http://www.unitbv.ro/orien/EducationalProjects.aspx>) and links to the projects own websites will be provided on short term.

All the activities developed in the university are based on equal opportunities for women and men. This is reflected in the gender percentage among the students (approx. 51% women), the teaching staff (43% women) and also among the members of Management Committee of the Erasmus Office (72% women).

Most of the activities in the university are fully accessible to disabled persons. There have been already involved students with physical disabilities in STS mobility and this process will continue since the students' selection is based only on their professional results and most of EU partners have the facilities in this sense.

Please explain the expected impact of your participation in the Programme on the modernisation of your institution (for each of the 5 priorities of the Modernisation Agenda*) in terms of the policy objectives you intend to achieve. (max. 3000 characters)

Original language [EN]

The opportunity offered by UTBv for its students to participate to high quality international exchange programmes is expected to enhance the attractiveness for our university and the quality of the prospective students. This is expected to contribute to increasing the graduation rate and the quality of the graduates (1st priority of the Modernization Agenda - PMA).

The participation of academic staff in STA is expected to contribute to innovative teaching and testing methods appropriate for task-based learning and enhancing the use of the e-learning platform by both teachers and students. It will also allow redesigning study programmes and defining learning outcomes in terms of developing transversal competences, including personal development and that of the civic and ethical spirit among students. The participation of students from the second and third cycle is expected to help at strengthening the Interdisciplinary Doctoral School and at stimulating the international collaborations, the co-tutorship doctoral programmes and the enrolment of foreign doctoral and post-doctoral students (2nd PMA).

The Programme implementation in UTBv has been performed with significant results and the benefits acknowledged by the participants are related to positive experience in a different learning/ training environment, cultural development, improved communication skills in foreign languages, and enhanced self-confidence. All these are expected to continue to be developed in the future. Internal efforts are on-going for a better dissemination of the programme within the students and for improving the framework for receiving the incoming students (3rd PMA).

One of the UTBv objectives is to promote scientific research as part of the teaching-learning experience. At the same time, the combination of research and teaching competences of UTBv's academic staff is expected to be ensured in processes for staff selection, development and management. Staff mobility and students' mobility for developing the graduation/ dissertation theses or for practical training are expected to significantly contribute to achieving these objectives. As academic staff has to be in permanent contact with companies at international level (closing BAs, setting the training program, monitoring the placements and assessing their results and impact), a dialog is established between university and enterprises, with positive impact on students overall preparation (4th PMA).

As public funding is decreasing and universities need to identify alternative funding mechanism, the Programme is expected to continue to be a complementary funding source for staff development and training. The UTBv selection strategy, both for staff and student mobility, is based on professional results and stimulates excellence. Being also used as a valuable tool in creating a dialog platform with companies, the programme indirectly contributes to creating additional funding mechanisms, based on the U-E cooper. (5th PMA).
