### Letter of confirmation for Prof. Barbu - project manager at Salzburg Univ. of Applied Sciences

Kuchl, 11. Juli 2017

*To whom it may concern*

As head of the "Forest Products Technology and Timber Construction" Department of Salzburg Univ. of Applied Sciences (SUAS), Campus Kuchl, I hereby confirm that my colleague, Professor Marius C. Barbu, was the project manager of the research project called in German "Spezifische Charakterisierung von bereitgestellten Prozessabwasser und Evaluierung der Möglichkeiten zur Generierung von Wertstoffen" (translated to English as "Specific characterization of provided process waste water and evaluation of the possibilities to develop valuable substances") which run between 2012-2014.

This project was a cooperation between SUAS and many partners from the Austrian pulp and paper industry: Sappi (Gratkorn), Schweighofer (Hallein), MinerWA (Linz), GIG Karasek (Gloggnitz) and had a budget of € 36,000 for the above mentioned period.

Prof. Barbu initiated, coordinated and acted as unique project manager.

Due to still valid confidentiality agreement between SUAS and these industrial groups this project is not public and only a short description is available on the web site for Research & Development of SUAS (<http://www.fh-salzburg.ac.at/forschung-entwicklung/holz-und-biogene-technologien/projekte/abgeschlossen/#c8101>). This is a standard procedure at SUAS to protect high confidential valuable industry related research projects and their results.

Please do not hesitate to contact me if additional information is needed.

Sincerely yours,

FH-Prof. Priv.-Doz. DI (FH) Dr. Alexander Petutschnigg, Bakk.rer.nat., MSc.  
Head of Department Forest Products Technology and Timber Construction
