Dear Professor MOGAN,

I am pleased to inform you that your proposal has been retained for negotiation by the Commission services following its assessment by independent experts.

You will find attached a copy of the evaluation summary report on your proposal (annex I)

The programme officer in charge of negotiating your proposal is:

Mr John CLEUREN

Tel n°: (32-2) 296 73 19

Fax n°: (32-2) 295 80 46

E-Mail: john-hubert.cleuren@cec.eu.int

He will provide you with further details for drafting the description of the work for your project, and arranging financial and administrative issues.

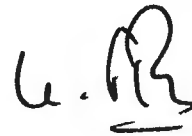

**All the completed forms must be sent to the programme officer before 1 July 2002, Failure to respect this deadline may be considered by the Commission as a wish not to enter into contract negotiations and therefore to withdraw your proposal.**

**Negotiations must in principle be successfully completed by 15 July 2002 and no later than 2 months after the date of this letter. The Commission reserves the right to terminate the negotiations after that deadline.**

This letter should not be regarded under any circumstances as a formal commitment by the Commission to give financial support as this depends, in particular, on the satisfactory conclusion of contract negotiations and the completion of the formal selection process.

Please inform the other participants of the current situation.

Yours sincerely,

## CONTRACT NO G1MA-CT-2002-04038

The European Community ("the Community"), represented by the Commission of the European Communities ("the Commission"), itself represented for the signature of this contract by Mr MITSOS ACHILLEAS, Director-General for RESEARCH DG or his duly authorised representative,

of the one part

and

- University of Brasov (UTRAN.PDR) ("the coordinator"), established in Eroilor 29, 2200, BRASOV, Romania, represented by its legal/statutory/authorised representatives, Mr CHIRIACESCU Sergiu T., Rector, Mr DOGARU Victor, Vice-Rector,

( ) of the other part,

(collectively "*the contracting parties*")

HAVE AGREED to a project called "Advanced Computer Aided Design of Ecological Products and Technologies Integrating Green Energy Sources" to be carried out in the framework of the specific research and technological development programme "Competitive and Sustainable Growth" (the "specific programme") according to the following provisions.

## Article 1 – Scope

The *contractor*<sup>1</sup> shall carry out the work set out in Annex I to this contract up to the milestone specified in Annex I ("*the project*") in accordance with the conditions set out in this contract.

Subject to cases of *force majeure*, the *contractor* shall use reasonable endeavours to achieve the results aimed at by the *project*.

## Article 2 – Duration

1. The *duration of the project* shall be 36 months from the first day of the month after the last signature of the *contracting parties*.
2. This contract shall enter into force following its signature by the *contracting parties*.

This contract shall be completed on the date of the final payment of the Community's financial contribution. However,

- Articles 5, 6 and 8 of this contract,
- Article 2(1) subparagraph (1) points (c), (d), (f) and (h), Article 3(4) and (5), Article 6, Articles 9 to 12, and Articles 16, and 17 of Annex II to this contract

shall continue to apply after that date to the extent of any limitations specified in those articles.

## Article 3 - Estimated costs and maximum financial contribution of the Community

1. The total estimated eligible costs of the *project* are EUR 198800 (one hundred and ninety eight thousand eight hundred euro).
2. The Community shall fund the eligible costs of the *project* in accordance with the table of the indicative breakdown of the estimated eligible costs which follows the signatures affixed to this contract up to a maximum of 198800 EUR (one hundred and ninety eight thousand eight hundred euro).

Where the *eligible costs* of the project are lower than the total estimated *eligible costs* for the project, the Community's financial contribution shall be limited to the amount which results from the application of the percentages of the financial participation as laid down in the indicative breakdown of estimated *eligible costs* which follows the signatures to this contract.

## C6. QUALITY OF MANAGEMENT

### 1. Organigramme

In PDR department a Supervisory Board led by the head of department coordinates the research activities. The head of department is the representative of the research unit and is entitled to commit the department at the superior management levels of the university. The head of department is nominated through elections every four years. The Supervisory Board (SB) is an internal leading structure that include all the senior leader of the 6 Workgroups (WG). The membership of the SB is automatically recognized as soon as the other members agree on the new workgroup in the department. The SB is meant to support and inspire the management of the department through advisory meetings where all *strategic matters* are discusses and decided.

*Management structure of the PDR department*

### 2. Distribution of staff

Although each of the staff in PDR Department is associated with one workgroup it can be possible to work in cooperation with other workgroups. The six workgroups (WG) are: 1 - Couplings and Mechanical Transmission; 2 - Linkages; 3 - Robots; 4 - Tribology; 5 - Product Design; 6 - CAD / CAE. The table below outline the distribution of research staff in age, qualifications and tasks.

Out of the permanent research staff a number of auxiliary personnel is based in the PDR department:

- Technical & Administrative Staff (Secretary, Technicians etc.), 9 persons
- MSc students, 12 students

### 3. Management concept and internal communication

The management concept is based on *Project Management*, i.e. the research activity is a collection of research projects. Each project has a project director usually supported by a steering committee. The project team may belong to the various workgroups, yielding to a matrix structure for the day-to-day research management of the PDR department (see table below showing the current situation for the running projects).

The prospective project directors initiate projects by defining the objectives, work team, work plan, financial issues etc. An evaluation of the proposal is made at WG or SB level depending on the project scope.
