Contemporary English Language: <i>Phonetics</i>	LEC1	2	2	1	-	-

Course description (Syllabus): The course in English phonetics and phonology is introductory. It explains the articulatory system for language that leads to the production of vowel and consonant sounds in the major dialects in the sound system of English. It will also prepare students to be able to describe and transcribe the sounds of the spoken English language. The course will also help students to recognize and describe the phonemic patterns necessary to understand basic phonological processes and problems in phonology.

Main issues: Introduction to phonetics and phonology; The English vowel sounds: monophthongs, diphthongs, and triphthongs; The English consonant system; Processes that affect sounds in connected speech: juncture, assimilation, and elision; The suprasegmental phonemes: word-stress and intonation; Characteristic features in the pronunciation of some regional varieties of English (British, American, Australian, and New Zealand Englishes).

			course	seminar	laboratory	project
Contemporary English Language: <i>Lexicology</i>	LEC2	4	1	1	-	-

Course description (Syllabus): This course applies linguistic principles to the study of the English vocabulary. We will examine the rich stock of morphemes, or meaningful elements, in English words, and observe how these combine to

derive much of the vocabulary of English. We will also trace the development of the English vocabulary, sound change and meaning change, the linguistic relations of English, sources of new words, usage and variation, and slang. As far as possible, students will be encouraged to make their own investigations and discuss their findings and questions about words in class. Students will work to increase their mastery of English vocabulary from the technical, literary, scientific and other domains by acquiring recurrent morphemes and words incorporating them; and by generally increasing their awareness of the structure, history, and use of English words.

Main issues: Introduction to English lexicology; The diachronic approach to the English vocabulary; The synchronic approach to the English vocabulary; Word-formation rules; The meaning of words: causes and directions of changes of meaning; Sense (semantic) relations; Lexical strata in Contemporary English (archaisms, neologisms, technical terms, vulgar terms, slang, dialectal terms).

Practical Course: Techniques of Oral and Written Communication in the Source Language II	CP2	2	-	1	-	-

Course description (Syllabus): Syntactic errors in Romanian – causes, mechanisms, prevention methods; Aspects of hypercorrectness in Romanian; Situational and stylistic appropriateness in various registers of Romanian.

Course title	Code	No. of credits	Number of hours per week			
			course	seminar	laboratory	project
Practical Course: Critical thinking	GCR	2	-	1	-	-

Course description (Syllabus): Succinctly stated, critical thinking refers to the ability to reason well, that is, to identify, produce, and evaluate arguments. The purpose of the course is to help students develop these kinds of reasoning skills – recognizing simple and complex argumentative structures, building strong arguments, appraising evidence, information and influences – pertaining to academic reading and writing, but also to everyday life situations. To these ends, the course briefly presents some general theoretical issues at the beginning of each session, followed by the analysis of various examples of arguments and group discussions.

Course title	Code	No. of credits	Number of hours per week			
			course	seminar	laboratory	project
Elective Course in English 1E: The History of the English Language from a Sociolinguistic Perspective	ILESE3	2	1	1	-	-

Course description (Syllabus): This course takes a diachronic approach to the development of the standard variety of British English. It starts from its earliest beginnings by considering its Celtic substrate. It goes on to investigate the Anglo-Saxon stratum and, from here, it highlights all the landmark moments and events that have shaped English into what it is today. The premise that this course starts from is that the evolution of a language can only be studied against its socio-cultural backdrop. In light of this, language facts will be discussed in close connection with the extralinguistic factors which have determined (or, as the case may be, obstructed) their occurrence.

Course title	Code	No. of credits	Number of hours per week			
			course	seminar	laboratory	project
Elective Course in German 1G: Postmodern Theatre in the Germanic Cultural Space	TPSCG3	2	1	1	-	-

Comparative Literature IV	LC4	3	2	2	-	-

Course description (Syllabus): This course focuses on the idea of the abrupt changes modernity brings with it. It concerns the transformation of the world vision, the representation of reality, the place of the individual in the modern world and the crisis of language. Poetry is seen as the most important tool in redefining the self in modernity. The modern paradigm is built on the theoretical consideration of the poets from the beginning of modernity: Baudelaire, Rimbaud, and Mallarmé.
